Plush Toy for your Communication

The Factory Profile

- We have been in contact with ***some of the biggest plush toy factories***, located for example in Dongguan city, Guangdong province, covers an area of more than 5000 square, with 50-100 workers.
- Our company has become a professional ***OEM customization and a top supplier***.
- The main OEM business scope has: all kinds of plush toys, plush doll, pet toys and home textile products. These factories have more than ***15 years working experience***.
- We have obtained the rights of import and export operation and independent inspection, ***passed ICTI, ISO, BSCI*** and some other audits standards.
- The products use the environmental protection material and have fine workmanship, which can pass the relevant test standards of domestic and European countries.
- Safety: **Each** toy can meet ***EN71, ASTM, CPSC*** etc

IDEA GROUP IGM srl, always uses materials that can be certified and secure. For each toy suitability certificates are always produced, in line with the most recent European harmonized standards. The certification bodies used are recognized and approved all over the world and use the most modern stress techniques on the product to verify their suitability.

We tag and labeling each toy with washing and legal information, numbers of lot and age indications for usage

The Ethical Toy Program Audit Checklist

What does the Ethical Toy Program cover?

ICTI Ethical Toy Program Certification requires factories to uphold the following standards to support the rights and well-being of factory workers:

Audit Process

Factories are transparent, auditors given full access to premises; able to conduct worker interviews without interference

Business Ethics

No attempts to improperly influence the process or the outcome of audits

Discrimination

No discrimination in recruitment, workplace or dismissal

Disciplinary Practices

Employees are treated with dignity and respect at all times

Employee Representation

Rights of freedom of association and collective bargaining are recognized and respected

Employment Practices

Compliance with applicable employment regulation and requirements, labor contracts provided to all workers

Environment and Chemical safety

Compliance with environmental regulations, training to ensure chemicals are handled safely

Modern Day Slavery

No forced, involuntary or prison labor, no recruitment fees, all overtime is voluntary

Safety

Workplace conditions are safe, employee health is safeguarded, protective equipment provided and utilized, effective emergency procedures

Underage Labor

No child labor, enhanced protections for young workers

Wages

Legal, fair, and accurate pay received without delay

Working Hours

Hours are not excessive, adequate rest breaks provided

The Ethical Toy Program Audit Checklist sets out detailed requirements which factories must meet in order to become Certified in our program. The Audit Checklist forms the backbone of the program, focusing on safe work environments, ensuring that workers are treated fairly with respect and dignity and that factories operate ethically. The Audit Checklist draws on conventions of the International Labor Organization (ILO) and other initiatives to promote fair labor practices. The Ethical Toy Program Audit Checklist was originally based on the International Council of Toy Industries (ICTI) Code of Business Practices but has since evolved to incorporate other ethical issues and best practices.
